Roses

No where does the Rose grow better than in the Pacific Northwest. The rose blooms from spring till fall in this favored climate.

No home should be without roses. The bushes are low in price. They are easy to grow. They produce the most beautiful flowers that the world knows. Our list includes the best varieties known.

Rose Bushes

Angele Pernet—Orange-yellow, shaded deep reddish-apricot. A real rose.

Autumn—Deep burnt-orange and pink streaked with red. One of the newer varieties.

Austrian Copper—Plant this variety among shrubs and don't prune. Makes a large bush. Single flowers of copper-red on one side of petal and golden yellow on other side.

Betty Uprichard—Copper-pink petals. A good rose.

Chas. P. Kilham—Double orange-pink blooms. Resembles Edu. Herriott.

Constance—Yellow buds streaked with red. Beautiful glossy foliage.

**** Condesa de Sastago**—A new Spanish beauty. Glowing orange-scarlet on inside petals and bright yellow on outside. This rose will equal Talisman in popularity as it becomes better known. Does well in heat of summer.

Chateau de Clos Vougeot—Blackish-red. Double. Fragrant.

Cuba—Long, slender, orange-scarlet buds, Semi-double.

Dame Edith Helen—Large, perfectly formed, double, shell-pink buds.

E. G. Hill—Perfectly shaped, large, double dark scarlet buds. Fragrant.

Etiole de Hollande—The finest red. Large, beautifully formed buds of rich crimson. Fragrant.

Feu Jos. Looymans—Large, bronze-yellow well shaped buds. A fine rose.

Frau Karl Druski—Pure white. Double. Very vigorous.

General McArthur—Glowing crimson-scarlet. Fragrant.

Golden Dawn—New. Large, sunflower yellow buds. Very popular.

Golden Emblem—Golden yellow. Large double buds. The most popular yellow rose.

Golden Gleam—New. Some claim it better even better than Golden Emblem. Buds are longer and have more carmine on them. A beauty.

Gruss en Telpitz—Bright velvety crimson. Fragrant. Very hardy.

Hoosier Beauty—Glowing crimson. Full. Fragrant.

Imperial Potentate—Large, well shaped. Brilliant pink. One of the best.

Jules Gaugard—Orange-rose. Large flowers. Fragrant.

Julien Potin—Large, pure yellow. A fine rose.

Joanna Hill—Pale golden yellow. Beautifully shaped buds.

K. of K.—Brilliant scarlet. Semi-double.

***Li Bures**—A spanish Chameleon. Each flower seems to have a different mixture of coloring. Bud maroon-red. Flower a mixture of shades of pink, orange and yellow. Don't pass up this one.

Lord Charlamott—Large beautifully formed crimson flowers. One of the best reds.

Lady Hillington—Apricot yellow with narrow pointed buds.

Lady Margaret Stewart—Large well formed buds of orange-red and coppery yellow. Fragrant.

Los Angeles—Pink and coral. Well shaped buds. A most popular variety.

Margaret McGreedy—Large, double, brick-red. Free flowering.

Marion Cran—Crimson, orange and yellow combination. Some prefer it to Talisman.

Mme Caroline Testout—"The Portland Rose." Very hardy. Clear pink.

Mme Butterfly—Flesh pink. Beautifully formed buds.

Mme Edu. Herriott—Coral pink shaded yellow and scarlet. There are few better garden roses.

Mme Jules Bouche—The finest white bedding rose.

Mrs. Aaron Ward—Buff yellow. Double.

Mrs. E. P. Thom—Well shaped, double, pure unfading yellow. One of best yellows.

Mrs. G. A. VanRossem—Red, orange and yellow. One of most popular roses. Don't pass it up.

Mrs. P. S. Dupont—Bright golden yellow. Well formed buds. A new variety. Good.

Olympiad—Coppery red tinged with fire-red. Double.

Padre—Rich copper-scarlet. Semi-double. Every garden should have Padre.

Pres. Hoover—Multi-colored. Combines shades of cerise-pink, flame, scarlet and yellow. Vigorous and heavily productive. This and Talisman have been the two best sellers during the past ten years. A fine rose.

Red Radiance—Light reddish-crimson. Very popular in the East.

Rev. Page Roberts—A beauty. Well formed tawny-yellow, splashed copper in bud.

Roslyn—Clear yellow.

Rosella Sweet—Browish-yellow flushed with salmon. Fragrant.

Talisman—Most popular rose grown. Combination of orange-yellow and rose-red.

Ulrich Brunner—Very hardy and vigorous. Red. Fragrant.

Vanguard—Orange-salmon and copper. Hardy, vigorous. Beautiful foliage.

Ville de Paris—Large, pure yellow flowers. Good.

Polyantha Roses

(Baby Roses)

These Roses have small flowers and bloom continuously all summer. They are better used in shrub borders in masses than among other roses. No shrub gives the continuous color that the polyanthas do.

Place Order Immediately

Glori Mundi—Great clusters of orange scarlet flowers. Low growing bushes.

Golden Salmon—Brilliant orange-scarlet single flowers. Low bush.

Ideal—Small double scarlet flowers. Makes a fine edging.

Ellen Poulsen—Brilliant pink clusters of flowers. Dwarf bush.

Single Roses

Cecil—Yellow. A large flower with 5 petals.

Irish Fireflame—Buds deep orange. Flowers old gold.

Isobel—Very large, single, bright orange-pink with yellow center.

Kirsten Poulsen—A polyantha with single, medium sized bright crimson flowers. Bush grows 3½ ft.

Else Poulsen—A polyantha with large single bright salmon-pink flowers in clusters.

Note—We have many varieties not herein listed. Send for Rose booklet describing more fully the above and many other roses. Free.

Climbing Roses

What plant produces a more spectacular show than a good climbing rose? Train climbing roses on fences, trellis, against old sheds and garages. Surround your yard with climbers and obtain privacy along with beauty. We offer the finest list of climbing roses to be had. New as well as old varieties.

***Black Boy**—Makes great masses of dark-red flowers. A newer variety.

Climbing American Beauty—Crimson. Fragrant.

***Cl. Cecile Brunner**—Tiny, well shaped pink flowers like on bush C. Brunner.

***Cl. Chateaux De Clos Vougeot**—Velvety, blackish-red, fragrant.

***Cl. Golden Emblem**—Same beautiful yellow flowers as on bush G. Emblem. Rampant grower.

***Cl. Hadley**—Vigorous. Rich, velvety crimson. Fragrant. New.

***Cl. Los Angeles**—Same flame-pink flower as the bush variety.

****Cl. Talisman**—New. Produces blooms larger and even finer than the bush variety. Vigorous. Blooms all season. Don't miss this one.

Dr. Van Fleet—Very vigorous. Flesh-pink, double flowers.

Emily Gray—Semi-double, golden buff flowers. Glossy foliage.

Hiawatha—A rampant Rambler. Clusters of single, crimson flowers.

Jacotte—Orange-yellow blooms. Glossy foliage. Slow growing.

****Kitty Kinninmonth**—New. Vigorous. Large, well shaped, fadeless pink. One of best pink climbers.

Le Reve—Large, clear unfading yellow flowers. Grows to 15 ft.

****Mermaid**—Immense, sulfur-yellow, single

flowers. Blooms till frost. Different and well worth while.

Mrs. Geo. Thomas—Almost single, yellow-pink flowers. Everblooming.

Mme Gregoire Staechelin (Spanish Beauty)—Large, pink flowers. Vigorous.

***Pauls Lemon Pillar**—Medium grower. Beautifully shaped sulfury-yellow to white flowers. Best white type.

Pauls Scarlet Climber—Most popular of all red climbers. Immense masses of vivid scarlet flowers.

***Scorcher**—New. Large, semi-double flowers with crinkled petals of brilliant scarlet-crimson. Blooms all summer.

****Souv. De Claudius Denoyel**—Our choice among the red climbers. Fragrant, well shaped flowers. Ever-blooming. Velvety crimson flowers. A far better rose than Blaze.

Silver Moon—Extremely vigorous. Masses of large, almost single pure white flowers.

Prices—Roses marked with ** 75c each for No. 1 grade.

Roses marked with * 60c each for No. 1 grade.

All other roses 40c each for No. 1 grade.

Medium grades 10c less than No. 1 and No. 2 grade 20c less than No. 1.

Discounts: For 10 to 24 roses discount 10%; for 25 or more discount 15%; 50 or more 20%.

NOTE—We prepay rose shipments West of Cascades on orders of \$2.00 or over. Where orders amount to less than \$2.00 add 25c for postage.

Rose Grades—Except for baby roses the No. 1 grade bushes have 3 or more strong canes 16 inches and up; the medium grade has 2 or more canes 14 inches and up and the No. 2 grade has 2 or more canes 10 inches or up (The No. 2 grade is the grade offered by chain stores and other bargain price agencies).

Patented Roses

Amelia Earhart—Creamy yellow. Fragrant. \$1.50 each.

Better Times—Cerise fragrant flowers. We like this best of the patented varieties. \$1.50 each.

Blaze—The most highly advertised rose grown. There are much better climbers on our list. \$1.25 each.

Countess Vandal—Pink, copper, gold, salmon combination. Pointed buds. A really fine variety. \$1.00.

Golden Climber—A vigorous yellow. \$1.50.

Mary Hart—A red sport of Talisman. Good. \$1.00.

Nigrette—A small, very dark red. Highly advertised. \$2.00.

Princess van Orange—A vigorous climbing sport of Glori Mundi. Orange-red flowers. \$1.25.

Token—Glowing orange flowers. \$1.50.

No discounts on patented roses. Price is controlled by patentee. These varieties grown in California. All other roses offered are our own Salem Grown roses, acclimated roses for N. W. conditions.

Many Items are Scarce

THE FRUIT TREE SITUATION

Fruit trees are in short supply this year. This is particularly so with two year old trees. The destructive freeze in the East two winters ago destroyed great acreages of orchards and at the same time almost cleaned out many of the Eastern nurseries. As a result the East drained out the surplus stocks from the Northwest last year and are after them again this year. We are marking with ** those varieties that we have any quantity of in two year old stock. We have a few two year trees in some other varieties. A good yearling whip, however, is almost as far ahead as a two year tree, for the shock of transplanting is less.

Apples

Price:	Each	10	100
2 year branched....	60c	55c
4 to 6 ft. 1 yr. whips	50c	45c	35c
3 to 4 ft. 1 yr. whips	40c	35c	30c

PEARCY BROS. PAY THE TRANSPORTATION ON ALL ORDERS OF \$5.00 or over, west of the Cascades. If order is less than \$5.00 add 25c to help on transportation. Varieties: (in approximate order of ripening).

*Red Astrachan—Very early cooking apple. Striped with red. Acid.

*Yellow Transparent—Yellow. Best summer apple.

*Gravenstein—Large striped apple. Best early fall apple.

Red Gravenstein—Like common gravenstein except its color is solid red.

King—Large, striped red. a very good apple to follow gravenstein.

*Jonathan—Red. Medium size. Bears young and regularly. Good quality.

*Grimes Golden—Best quality yellow apple.

*Ortley—A high grade yellow apple. Sometimes called White Bellflower.

*Winter Banana—Large, yellow apple. Good cooking.

Wagener—Bears very young. Good keeping.

*Delicious—A fine red striped apple. At its best between Thanksgiving and Xmas.

*Red Delicious—Same quality as Delicious but with solid red color. A better keeper. One of very best eating apples.

Yellow Delicious—A fine yellow apple. Bears very young. Keeps well.

*Spitzenburg—Highest quality. Good keeper. Red. Season Dec., Jan., and into February.

*Northern Spy—Red. Juicy. Fine quality. Keeps well.

*Red Spy—Like N. Spy except a solid red. A new variety.

Roxbury Russet—An old-time russeted apple. Good size. Good keeping.

*Rome Beauty—Bears heavy and regularly. One of best keepers and best baker.

*Red Rome—A solid red apple having all other characters of Rome Beauty.

*Yellow Newton—Late. Fine keeper. High quality.

*Hyslop Crab Apple—Medium size. Striped. One of best crabs.

Note—Variety marked with * can be supplied in two year trees. We also have a small supply of some other varieties in two year trees.

Pears

No home orchard should be without Pears, both the summer canning varieties and the fine keeping pears.

Price: Same as Apples.

*Bartlett—The great canning Pear. Ripens in August. High quality. If you can have but one pear choose Bartlett.

*Bosc—A long-necked, russeted pear, of highest quality. Ripens a month or 6 weeks after Bartlett. A fine pear.

*Clargeau—A large, heavy bearing winter pear of good quality.

Comice—A large late winter pear. Highest quality.

*D'Anjou—A winter pear of highest quality.

Fall Butter—An early winter pear. Good quality.

Seckle—Small, brownish-green. Finest quality. Early winter.

Winter Nelis—Small. Russeted. Late keeper. High quality.

Peaches

Peaches will thrive all thru the region West of the Cascades. Plant on well drained land and spray twice each winter for best results. In sections where there is any question as to hardness plant Rochester, Mayflower and Triumph for a long season of hardy varieties.

Prices:	Each	10 rate	100
Select heavy trees	60c	55c
4 to 6 ft. trees.....	50c	45c	35c
3 to 4 ft. trees.....	40c	35c	30c
2 to 3 ft. trees.....	30c	25c	20c

Varieties listed in approximate order of ripening.

Mayflower—White juicy flesh. Earliest. For eating raw only.

Hales Early—Very early white-meated peach.

Triumph—Semi-cling. Earliest yellow-meated peach. Heavy and regular bearer.

Slappy—A yellow-meated free-stone. One of highest quality canned.

Rochester—Hardest of all peach varieties. A Crawford type ripening its first fruit a week to 10 days before early Crawford. No split pit fruits. A good canning and eating variety. Best peach in Puget Sound region.

Columbia—A large, white fleshed peach of fine quality. For eating fresh.

Early Crawford—Most used peach in Oregon. Free stone—fine quality.

Charlotte—Very similar to Ey Crawford but a few days later and considered by many to be more productive and a better peach.

Garmen—A high quality white meated peach. Unexcelled for dessert use.

Improved Elberta—Best of all canning varieties but subject to leaf curl and requires careful spraying. Heavy bearer. Yellow free-stone. A little earlier than the common Elberta and better in every respect.

JH Hale—One of most popular varieties. Fruit very large. Productive.

Elberta Cling—A fine large clingstone canning variety.

Muir—A yellow-meated free-stone that is a fine canner. Not so good to eat fresh.

Perfection—A very productive canning free-stone. Fruit only medium size.

Late Crawford—A large free-stone that ripens about a month after Ey Crawford.

Salway—Ripens in early October. Large.

Please Read Before Ordering

We grow our own Nursery Stock here in Salem

Buy direct from the grower for best results. Grown under West of the Cascades conditions, our stock is thoroughly ACCLIMATED TO WESTERN WASHINGTON AND OREGON CONDITIONS.

Why risk sending away for stock grown under different climatic conditions when you can buy ACCLIMATED STOCK, direct from GROWER, for less money than the usual price offered by outside selling organizations.

PLANTING SEASON:—Nursery stock does not ripen up thoroughly until about the middle of November. We dig and ship immediately that it is ripe, but WE DO NOT dig before mature, simply that we may beat the other fellow to shipments.

All the items listed herein can be planted from middle of November until late February or early March, depending upon the earliness of the spring. For best results plant before middle of February.

TRANSPORTATION:—We pay the mailing or express charges on items listed herein to points West of the Cascades, provided the amount of order is \$5.00 or over. (With roses, berry plants and grapes we prepay on orders of \$2.00 or over). Where order is less than these amounts add 25c to help pay transportation.

TERMS:—For orders of less than \$1.00 send cash in full with order. For orders over \$1.00 send 20% deposit. (Minimum deposit 50c). If not paid for in full before shipping date we add 15c to C.O.D. to pay for the C.O.D. costs. Pay in Full before shipment and save this charge.

GUARANTEE:—We guarantee all stock to be true-to-name, free from disease and reach you in a live and healthy condition. However, we do not guarantee stock to grow under conditions over which we have no control. Should there ever be any complaint please make it as early as possible and it will be handled in a fair and square manner.

We exercise the greatest of care in delivering first class, true to name stock and hold ourselves in readiness to replace same when proven otherwise. But at no time will we be held liable for an amount greater than the original price.

Yellow flesh. Free-stone. Does not always sugar up due to lateness of ripening.

PRICES IN THIS LIST INCLUDE TRANSPORTATION TO ALL POINTS WEST OF the Cascades where order is for \$5.00 or over. For less than \$5.00 add 25c to order and we will prepay.

Nectarines

The Nectarine tree looks like a peach tree and the pit is like a peach pit. The skin, however, is smooth, like that of a plum. The flesh is rich and smooth and has a flavor all its own. A most delicious fruit that it little known here, but which will thrive wherever the peach thrives. Every home planting should have a Nectarine tree.

Stanwick—Leading Nectarine variety. Prices: Same as for Peach trees.

Apricots

Where given the full peach spraying program, Apricots will bear well in the region west of the Cascades. Handle like peach trees.

Prices: Same as for Peach trees.

Southwick—This is a local variety that has borne regularly for many years under Willamette valley conditions. Original tree has been growing near Rickreall for over 50 years. A good size fruit and regular in bearing. Best bet for conditions west of Cascades.

Tilton—A large fruiting commercial variety.

Wenatchee Moorpark—One of the leading commercial varieties of Eastern Washington.

Almonds

See Almonds listed under Nut Trees.

Sweet Cherries

Sweet Cherries make large productive trees. Bing, Lambert and Royal Anne require other varieties for pollinizers as they will not bear well planted either alone or with each other. We list several pollinizers below. Our cherries are all grown on mazzard root—the long-lived root.

Prices:	Each	10 rate	100
2 yr. branched trees	90c	75c
1 yr. 4 to 6 ft. whips	60c	50c	40c
3 to 4 ft. whips.....	50c	40c	30c
2 to 3 ft. whips.....	40c	35c	25c

Bing—A large, solid black cherry. High quality. Ripens with Royal Anne.

Black Republican—Black fruit smaller than Bing. Used largely as pollinizer for Bing, Lambert and Royal Anne.

Black Tartarian—Ripens earlier than main crop cherries. Soft, black fruit. Used as pollinizer.

Hoskins—A splendid pollinizer with fruit resembling that of Bing, but a little smaller. High quality.

Lambert—Large, heart shaped, purplish-red fruit. Ripens after Bing. Better suited to west of Cascades conditions than Bing. A fine cherry.

Royal Anne—Yellow with red cheek. The great canning cherry. Ripens ahead of Lambert.

Waterhouse—A variety resembling Royal Anne, but softer. Used as pollinizer.

Sour Cherries

Prices:	Each	10 rate	100
2 yr. trees.....	90c	75c	60c
1 yr. 3 to 4 ft.....	60c	50c	45c
2 1/2 to 3 ft.....	50c	40c	35c
2 to 2 1/2 ft.....	40c	35c	30c

Kentish (Early Richmond)—Medium size, red sour pie cherry. Ripens a little ahead of Montmorency. Used as pollinizer for Montmorency.

Late Duke—Large dark red, half-sour cherry ripening late in July.

May Duke—Medium size, red, half-sour, ripening early June.

Montmorency—The best of the pie cherries. Bears heavily and young.

Plums and Prunes

Prices:	Each	10 rate	100
2 yr. trees.....	—	No 2 yr. trees this year.
4 to 6 ft.....	50c	45c	35c
3 to 4 ft.....	40c	35c	30c

Plums—In approximate order of ripening.

Burbank—Early. Productive. Good quality.

Peach Plum—Large. Early.

Shiro—Medium size, yellow skin. Productive.

Santa Rosa—Purplish-red with amber colored flesh. In our opinion probably the best plum for local conditions. Quality high.

Green Gage—Green color skin and flesh. Ripens late August. Good quality.

Satsuma—Red skin and flesh. Fine flavor. Productive when planted with Burbank or other varieties.

Blue Damson—Small, blue skinned used largely for jam and preserves.

Lombard—Large, purplish-blue skin with yellow flesh. Productive.

Hungarian—Large, late. Purplish red. Fair quality.

Prunes

Italian—The great canning and drying Prune. Medium size fruit. Ripens in September. The best canning of the plum family.

Petite (French)—Small fruited, sweet prune.

Date—A strain of Petites with larger fruit and larger pit. Good quality.

Many Variety Trees

These are fruit trees with two or more varieties growing on a single tree. Fine for small tracts where room is at a premium.

Apple Trees—We can supply Apple trees with two to four of the following varieties on a single tree:—

Yellow Transparent, Red Delicious, Yellow Delicious, Red Gravenstein, Red Spy, Rome and Spitzenburg.

Pear Trees—Bartlett with either Bosc or Anjou.

Italian Prune and Almonds on a single tree.

Cherries—With various assortments, two to four per tree, of Lambert, Royal Anne, Bing and Waterhouse.

Prices for Many-Graft Trees:—

2 varieties on a tree.....	\$1.50	per tree
3 varieties on a tree.....	2.00	per tree
4 varieties on a tree.....	2.50	per tree

Note—These trees are too large to ship parcel post. We prepay if total order is \$5.00 or over. If less than \$5.00 and 25c to order and we will prepay.

Nut Trees

All the nut tree varieties listed herein are hardy under conditions prevailing West of the Cascades. Nuts are very easily grown and a complete assortment should be found in every home planting. If you grow them yourself you can afford to eat more nuts.

GRAFTED FRANQUETTE WALNUTS

	Each	10 rate	100 rate
3 to 4 ft.....	\$1.00	\$85	\$75
4 to 6 ft.....	1.25	1.10	1.00
6 to 8 ft.....	1.50	1.35	1.25
8 to 10 ft.....	2.00	1.75	1.50

Note—Walnut trees larger than 3 to 4 ft. grade cannot be shipped parcel post unless cut back. All walnut trees should be cut back on planting.

Walnut Pollinizers

During favorable seasons the Franquette walnut sets a full crop without the aid of a pollinizer but during adverse seasons the crop may be greatly increased by pollinizing with a late blooming variety such as Late Meylan or King Franquette. One pollinizer per acre is enough. In large plantings we advise using both the above pollinizers.

Prices on walnut pollinizers:—

Late Meylan, 4 to 6 ft. trees.....\$2.00 each

King Franquette, 4 to 6 ft. trees.....3.00 each

Quince

3 to 4 ft. whips 60c 4 to 6 ft. whips 75c

VARIETIES, PINEAPPLE, CHAMPION

WE PAY THE SHIPPING CHARGES ON ORDERS OF \$5.00 or over. For orders less than \$5.00 add 25c to order and we will prepay.

Grafted Chestnuts

Chestnuts thrive thru the N. W. Every home should have a couple of these nut bearing shade trees. We offer Fuller, Quercy, Large American Sweet and Progress. Plant Quercy, a fine pollinizer and good bearer also, with any of the other varieties listed.

Price: 4 to 6 ft. trees, \$1.50 each.

Filberts

Tip-layered Filbert Trees:—Many of the finest orchards are of tip-layered trees. These have a lighter root than the transplanted types but if planted according to our instructions they will give excellent results and their price is low. We can supply Barcelona with DuChilly and Daviana pollinizers in this class of tree.

Prices on Tip-layered Filbert Trees

	Each	10 rate	100
2 to 3 ft.....	40c	35c	30c
3 to 4 ft.....	50c	45c	40c
4 to 5 ft.....	60c	50c	45c

Transplanted Filbert Trees:—These are a year older than the tip-layered types, being tip-layers that have been carried an additional year in the nursery rows. We advise Barcelona as a main crop with DuChilly and Daviana as pollinizers. If DuChilly is used as main crop use Gassoway and Clackamas as pollinizers.

Transplanted Filbert Trees

	Each	10 rate	100
3 to 4 ft.....	60c	60c	50c
2 to 3 ft.....	55c	45c	40c

Note—Write for special prices on larger quantities of Filberts.

Most of the transplanted filberts come as branched trees. We have a limited supply of unbranched whips in both DuChilly and Barcelona. A more even looking orchard can be obtained from this type of tree as one can head all trees at same height. Will supply these upon special request as long as supply lasts.

4 Year Old DuChilly Filbert Trees. These are large branched trees 5 to 6 feet high. Too large to ship parcel post.

Price: Each \$1.25; 10 or over \$1.00 each.

In lots of 50 or over at 75c FOB Salem, buyer paying the freight. Special prices on large orders where buyer will call in truck for the trees and save us packing costs on these large trees.

The New Royal Filbert

This introduction of our own is the largest filbert we have seen. Even larger than the largest Brixnuts. Quality high. Percentage of meat much higher than Barcelona. Self husking. A real filbert.

Prices on Royal filbert—4 to 5 ft. trees, \$2.25 each; 3 to 4 ft., \$1.75; 2 to 3 ft., \$1.25.

BRIXNUT FILBERT TREES:—We are sold so close on this fine variety that we are not pricing them. If interested, write.

Almonds

Certain varieties of almonds thrive west of the Cascades. The varieties we offer are soft shelled; as fine as anything you can buy in the stores. They are local varieties that have proven their bearing qualities under our climatic conditions.

	Each	10
2 to 3 ft.....	35c	30c
3 to 4 ft.....	40c	35c
4 to 6 ft.....	50c	45c
Select heavy trees.....	60c	55c

Varieties—Smart; Craven.

Berries

The New Boysen Berry

This sensational new berry is taking California by storm. It has not been tested in the N. W., but since its blood lines are similar to those of Youngberry it will undoubtedly stand all climates that the Youngberry does. Starts ripening 10 days after Youngberry and prolongs the Youngberry season two weeks. Berries almost twice as large as Youngberry and of most excellent quality. Supply limited. ORDER NOW.

Prices: 35c each; 3 for \$1.00; \$3.50 per dozen.

Youngberry—This is one of the finest berries grown. Delicious raw or in pies, jams, jelly or canned. Grow on a trellis like a loganberry. A dozen plants will amply supply the average family.

Ideal Wild Mountain Blackberry. This is a domesticated form of the wild mountain blackberry. It is best pie berry grown. Has all the high quality of the wild berry and bears well.

Loganberry—Fine for pies, jams and canned.

Himalaya Blackberry—Produces enormous crops of large, juicy berries after the above named berries are thru bearing. 25c each.

Prices of Youngberry, Loganberry and Ideal

Mountain Blackberry Plants

25c each; \$1.50 per dozen

Gooseberries—Oregon Champion, the standard berry of the north-west.

Perfection Currants—A large red currant.

White Grape Currant—Large clusters of white currants.

Prices: Postage prepaid in Oregon and Washington, 20c each; \$1.50 per doz.

Red Raspberries

Cuthbert—High quality. Less productive than some others.

Chief—Hardest of all. Early. Productive. Fruit large.

Lloyd George—High quality. Produces fall crop also.

St. Regis—Everbearing. Berries smaller than other varieties in this list.

Latham—Hardy. Heavy bearer. Good quality.

Newburgh—Best quality. More productive than Cuthbert. \$1.25 doz.; \$5.00 per 100.

Prices: (Except Newburgh) \$1.00 doz.; \$3.50 per 100 prepaid to Washington and Oregon points.

Strawberry Plants

</

Figs

1011

Our Fig varieties will produce well in the climate west of the Cascades. These varieties do not require pollenizers as do the California types. Excellent for eating fresh as well as for preserves and cooking. Bear young. Plant on well drained soil.

Varieties: Latturula Honey. — White fruit. Ripens two crops a year.

Gillette.—Yellow fruit. One crop annually. Crop comes on between the two crops of Latturula.

3 year trees about 2 ft. high, \$1.50 each; can go by parcel post.

4 year trees, 3 ft. high, \$2.00 each; express only.

5 year trees, 4 ft. high, \$4.00 each; express only.

EVERY HOME PLANTING SHOULD

INCLUDE A FIG

WE PAY THE EXPRESS OR MAILING CHARGES on ORDERS of \$5.00 or OVER

Persimmons

A fine fruit, but little grown but succeeding perfectly here is the Jap Persimmon. We offer the grafted amopan persimmon. This is very large fruiting and when ripe is not astringent. Very ardy.

Price: 4 to 6 ft. trees \$1.50 each.

Grapes

Grapes can be grown all thru Western Oregon and Washington if proper varieties are selected. All of our varieties herein listed are in this section. Don't be without all grapes that you can use, for they are very grown.

Each	10	100
1 yr. vines.....	30c	25c 18c

Concord—Large, blue-black grapes of highest quality.

Imp. Concord—(King). Stronger grower and a little earlier than Concord. Larger.

Delaware—Red.

Niagara—The best of the white grapes.

Island Belle—(Campbell Early). A large early, blue-black variety that ripens early; two weeks ahead of Concord. One of best for local use.

Hubbard—Black. Early as Island Belle. Superior quality.

McPike—Ripens with Worden. Very large, black grape. A fine variety for home use.

Worden—A large blue-black variety slightly earlier than Concord.

NOTE:—We prepay to Western Washington and Western Oregon points all orders of grapes, berry plants or rose bushes where order is \$2.00 or over. For less than \$2.00 add 25c and we will prepay.

If not fully paid for we collect balance due C.O.D. We add 15c to cover this added cost. You can avoid this added cost by sending in full payment before shipment.

Shade and Flowering Trees

A house without shade is a poor home. Add comfort and beauty to your home by planting our shade trees. The cost is nothing compared to the added comfort and satisfaction. Trees 3 to 4 feet high can be shipped parcel post without cutting back. A nice mailing size.

Catalpa—Fast growing. Makes large tree. Immense leaves. White flowers in summer. 3 to 4 ft. trees 75c.

Chinese Elm—Fast growing. Drouth resistant. A fine quick growing shade tree. 3 to 4 ft. 75c; 4 to 6 ft. \$1.00.

American Birch—Narrow, upright growing. Bark turns white after a few years. 3 to 4 ft. 75c; 4 to 6 ft. \$1.00.

Cut Leaf Weeping Birch—A pretty ornamental tree for lawn use. Slower growing than the American birch. 4 to 6 ft. trees \$1.50.

Kwanzan Jap Flowering Cherry—Best of the Jap cherries. Double pink flowers. 3 to 4 ft. trees \$1.00 each.

Double Red Weeping Peach—New. Double flowers. Makes beautiful tree. 2 to 3 ft. 75c; 3 to 4 ft. 90c.

Weeping Willow—The fastest growing of all trees. Makes very large tree. For quick shade use this one. 3 to 4 ft. 75c; 4 to 6 ft. \$1.00.

Walnut and chestnut trees are also valuable shade trees. See prices under Nut Trees. We have many shade trees not listed herein.

Deciduous Flowering Shrubs

This class of shrubs lose their leaves during winter but offer a beautiful display of flowers in spring. They will endure lack of watering much better than the evergreen class of shrubs and for this reason are better adapted to country homes where water may not be available for irrigation. Plant these shrubs around the base of buildings and around the edges of the yards for best effects. Plant 4 to 5 feet apart.

Pink Deutzia—Bush grows 6 feet high. Flowers white tinged with rose. Blooms in spring and early summer.

Forsythia—(Golden Bells). Grows 6 to 9 ft. high. Bright yellow flowers very early in spring before the leaves appear.

Bush Honeysuckle—Light pink flowers—makes 6 ft bush.

Spirea Van Houtte—Sometimes called bridal wreath. Grows 7 ft. high. Great masses of white flowers in spring.

Kerria (Japanese Rose)—Erect shrub with clear yellow flowers about size of a small dandelion.

Price: 40c each. For 10 or more deduct 10%. These are a nice size for mail orders, being bushy plants 15 to 18 inches high—2 years old.

REMEMBER—We pay the shipping charge to all Oregon and Washington Points on orders of \$5.00 or over. Where order amount is less than \$5.00 add 25c to cover shipping costs and we will prepay.
